Isaiah J. Smith

| jermaine.smith267@gmail.com | Columbia, SC |

Objective

Motivated and detail-oriented Computer Engineering student at the University of South Carolina with a strong commitment to personal and professional growth. Demonstrates initiative, teamwork, and problem-solving skills through hands-on web development experience and participation in mentorship and engineering organizations. Seeking an entry-level opportunity to apply technical and interpersonal strengths in a dynamic, growth-oriented environment.

Education

University of South Carolina — Columbia, SC
- Bachelor of Science in Computer Engineering - Information Technology
- Expected Graduation: May 2029

Affiliations & Mentorship

MODELS Academy: Participant in an ongoing mentorship program focused on guiding young African American men toward leadership, academic achievement, and life preparedness.

National Society of Black Engineers (NSBE): Active member promoting academic excellence, professional development, and community engagement in STEM fields.

Experience

Chick-fil-A — Greenwood, SC May 2021- May 2024
- Delivered excellent customer service in a fast-paced environment while maintaining accuracy and attention to detail.
- Collaborated effectively with team members to ensure smooth operations during high-volume periods.
- Demonstrated reliability, punctuality, and a strong work ethic aligned with company values.
- Gained experience in time management, communication, and multitasking under pressure.

Projects

Personal Web Development Projects — Independent Project | 2024–Present
- Designed and developed two functional websites using HTML and CSS.
- Applied responsive design and usability principles to improve user experience.
- Strengthened coding, debugging, and layout optimization skills through self-directed practice.

Technical Skills

Programming: HTML, CSS

Certifications: Communication, Problem Solving

Core Strengths: Team Collaboration, Critical Thinking, Adaptability
